Summary

Results-driven Web Developer with 2+ years of experience building modern, scalable, and responsive web applications using React.js, Next.js, and TypeScript. Progressed from Junior Developer to a managerial role, demonstrating strong leadership, team collaboration, and the ability to deliver high-quality production solutions. Currently working as a Product Excellence Engineer at Cubix Technology Ltd., focusing on enhancing product performance, user experience, and overall software quality. Skilled in the full software development lifecycle—from requirement analysis and design to development, testing, and deployment.

Education

Chandpur Polytechnic Institute – 2022 Diploma in Engineering (CMT)

Hajigonj Model Govt College – 2019 HSC, Science

Hajigonj Amin Memorial High School – 2017 SSC, Science

Technical Skills

- **Languages & Frameworks:** HTML, CSS, JavaScript, TypeScript, React.js, Next.js, jQuery, PHP, MySQL
- **Styling & UI Tools:** Tailwind CSS, Bootstrap, SASS, Flexbox, CSS Grid, Framer Motion, Material UI
- **State & Backend:** Redux Toolkit, Firebase, Clerk
- **Analytics & SEO:** Google Analytics
- **Database:** MySQL, PhpMyAdmin
- **Version Control & DevOps:** Git, GitHub, NPM, Yarn, Jenkins
- **Deployment Platforms:** Firebase, Netlify, Vercel, GitHub Pages, InfinityFree
- **Tools & IDEs:** VSCode, PyCharm, Laragon, XAMPP, Cursor
- **Design & Collaboration:** Figma, Canva, Jira, Confluence, LMS, Tailscale, Wiki.js, ClickUp

Key Contributions

- **End-to-End Web Development:** Designed, developed, and deployed full-stack web applications using React.js, Next.js, Tailwind CSS, and Firebase — ensuring scalability, performance, and maintainability.
- **Responsive & Accessible Design:** Delivered pixel-perfect, responsive layouts that provide seamless user experiences across mobile, tablet, and desktop devices.
- **Project Leadership & Mentorship:** Guided junior developers in implementing clean, reusable code practices and modern UI/UX standards, fostering a collaborative learning culture.
- **Agile Project Execution:** Managed sprints, task prioritization, and code reviews using Agile/Scrum methodologies and tools like Jira, Confluence, and GitHub.
- **Deployment:** Successfully deployed production-ready projects on platforms such as Vercel, Netlify, Firebase, and basic integrating CI/CD pipelines through Git and Jenkins.
- **Analytics & Optimization:** Implemented Google Analytics to monitor user behavior and make data-driven design and performance improvements.
- **Cross-Functional Collaboration:** Worked closely with designers, developers, and business teams to translate user requirements into innovative, real-world solutions.

Soft Skills

- **Effective Communication:** Clearly articulate ideas, technical concepts, and feedback across cross-functional teams.
- **Time Management:** Prioritize tasks efficiently to meet tight deadlines without compromising quality.
- **Adaptability & Continuous Learning:** Quickly learn new technologies and frameworks to stay ahead in a fast-evolving industry.
- **Team Leadership & Collaboration:** Foster a positive, knowledge-sharing culture and guide teams toward collective success.
- **Problem-Solving Mindset:** Approach challenges analytically and creatively to deliver practical, scalable solutions.
- **Attention to Detail:** Ensure accuracy and quality in every aspect of project execution, from UI design to deployment.
- **User-Centric Thinking:** Focus on usability and accessibility to create seamless user experiences.

Work Experience ----------

Product Excellence Engineer
Cubix Technology Ltd – Dhaka, Bangladesh (on-site) · **Dec 2025 – present**

- Provided advanced software technical support for HMS & PMS (Hospitality/Property Management Systems), ensuring smooth day-to-day operations
- Collaborated with development teams to identify bugs, improve product performance, and enhance user experience
